MAY

6

HeartLife Day E3 - Engage, Educate, Empower is designed to bring lived experience together with medical expertise to promote awareness and understanding of the patient journey.

By attending HeartLife Day E3 @ Heart Failure Update 2021 you will:

- Gain understanding of the value and need for a national standard of heart failure care.
- Be informed about current trends and future possibilities for heart failure therapies and treatments.
- Gain practical and emotional insights into the patient journey to enable greater acceptance and better patient outcomes.
- Gain an understanding of the multidisciplinary care model and the impact it can have on a patient's quality of life.
